

The Applications Development Branch, OCIO, issued Forms Release 042 on March 25, 2004. This release contains the following new forms:

SF326 - Semiannual Report of Payments Accepted From a Non-Federal Source

SF326A - Semiannual Report of Payments Accepted From a Non-Federal Source - Continuation

If you have all of the electronic forms stored on either a LAN or your PC, then downloading the file associated with this notice will give you all the files needed to access the new forms using the [menu screen](#). If you just need a copy of any of the forms, either new or revised, the individual file can be found with our downloadable forms under the appropriate functional area. If you connect to a LAN, do not download any of the individual form files before contacting your LAN administrator.

All of the attached files should be copied to the directory of your choice. The file rel-042.exe is a zipped file containing setupmn.arv, setup.arv and rel-042.exe. The execution of this file will allow you to extract these three files. Once the files are extracted, execute rel-042.exe, which will install the forms and databases. These files install to c:\inf41 by default. You can change this to the drive and directory of your choice. The rel042.bat file should be executed to copy the databases from your LAN directory to the individual users PC. This will create a backup of existing database files on the individual user PC prior to copying the new databases. This file is currently configured to copy from s:\apps\inf41\database; you should change this to reflect your LAN configuration.

If you encounter any problems or have any questions, please contact Brenda Clark (bclark@ars.usda.gov or 301-504-1117).
